Work Experience

As a **Frontend Developer**, I have **2+** years of hands-on experience building dynamic and responsive web applications handling server side as well as client side using JavaScript, React, and Next.js. I have collaborated with cross-functional teams to deliver high-quality, user-centric solutions while optimizing performance and ensuring clean, maintainable code

◆ **React.js**

2023

Working At Bhavin Technolab in API Integration and building UI with the help of react.js

◆ **Next.js**

2024

Surefy.AI (Remote, Mumbai) | Frontend Developer
Lead Management System (SaaS Application)
Next.js, React.js, Role-Based Access Control (RBAC), REST APIs, Tailwind CSS

MESC - Media and Entertainment Skills Council - (Project)
- Revamped UI and enhanced responsiveness in a Next.js/React.js project using TypeScript and Bootstrap, fixing critical layout issues while optimizing API integration for scalable performance.
- Built modular, reusable components to improve maintainability and delivered a 30% faster rendering experience across devices.

Next.js, React.js, Typescript, API handling, bootstrap

Relay Cargo - (Project)
- Developed a dynamic cargo logistics web app using Next.js and React.js, implementing Bootstrap for a responsive UI that streamlined shipment tracking and management.

Next.js, React.js, Bootstrap

Bhavin Technolab - (Project)
- Designed and developed the company's official website using modern frontend technologies, ensuring a responsive, visually appealing, and performance-optimized digital presence.
- Implemented SEO-friendly structures and fast-loading interfaces to enhance user engagement and brand credibility.

Next.js, React.js, Tailwind css

2025

Freelancing - NexPost.AI
- Built a responsive AI-powered social media post generator with React.js and Vite, delivering a 40% faster build performance compared to traditional setups.
- Implemented Tailwind CSS and MUI Design for a pixel-perfect UI with seamless theming, reducing styling inconsistencies by 60%.

React.js, Vite Bundler, Tailwind css, MUI Design

XPcover (Remote, Mumbai) | Frontend Developer
Freelancing Project - Assets Management, API management tool, E-commerce Project
Next.js, React.js, Role-Based Access Control (RBAC), REST APIs, Tailwind CSS, Barcode, Chart.js

Stainless Bazaar (Lead Management System)

- Developed a multi-role Lead Management Platform supporting buyers, sellers, and admins, enabling seamless collaboration and transparent lead flow between stakeholders.
- Implemented role-based access control (RBAC) and dynamic dashboards for each user type, improving data security and workflow efficiency.
- Built and optimized APIs for lead creation, tracking, and conversion.
- Designed an intuitive and responsive UI using React.js, React-Bootstrap, enhancing user experience and engagement across devices.

Achievments

2022 - 2023

2nd Rank In DigiHackathon
(tech arena 2023)
